# Begonia boliviensis I'conia Bacio

White

Montreal

Portofino citrix

Orange

Portofino coral

Upright fire

The Begonia I'Conia® Bacio series features compact, semi-upright plants with medium to large double blooms. These begonias thrive in partial to full shade and are ideal for containers, hanging baskets, and garden borders. They bloom from spring through autumn, reaching heights of 20–25 cm with a spread of 20–25 cm. The dark green to bronze foliage provides a striking contrast to the colourful flowers. Notably, the 'Bacio Orange' variety showcases bright orange blooms against dark foliage, making it a standout choice for adding colour to shaded areas.

# Begonia Cleopatra

Antony

Caesar

Marc

Julius

Begonia 'Cleopatra' is a compact, rhizomatous plant prized for its stunning, maple-shaped leaves in rich shades of green, bronze, and burgundy. It produces delicate pink blooms in spring and thrives in bright, indirect light with moist, well-drained soil. Ideal for containers, terrariums, or shaded indoor spaces, it brings exotic charm and texture to any plant collection.

## Begonia Elatior

Borias

Baladin

Begonia Elatior is a compact, bushy hybrid prized for its vibrant, rose-like blooms and glossy dark green foliage. Typically reaching 30–45 cm in height and spread, it thrives in bright, indirect light and well-draining, slightly acidic soil. With proper care including consistent moisture, high humidity, and temperatures between 18–24 °C it can bloom nearly year-round, making it an ideal choice for indoor containers or shaded outdoor spaces. Regular deadheading and occasional pruning encourage continuous flowering and maintain its lush appearance

## Begonia Elatior Ilona

Eva

Carneval

Camilla

Romance

Dark netja

Sadrine

Begonia Elatior 'Ilona' grows to a height of 30–45 cm with a spread of about 30 cm. It thrives in bright, indirect light—avoid direct sun to prevent leaf burn. For best results, plant it in well-draining, fertile soil with a slightly acidic to neutral pH (5.5–7.0). Keep the soil consistently moist and provide moderate to high humidity. It's perfect for shaded patios or indoor containers.

# Begonia Collection

Clara

Veronica

The Begonia Collection brings together a stunning variety of begonias each offering unique colours, foliage, and growth habits. From the vibrant, rose-like blooms of Elatior types to the exotic leaves of Rex and Cleopatra, and the trailing beauty of Boliviensis, this collection thrives in partial shade with well-drained soil and regular moisture. With sizes ranging from 20 to 45 cm in height, these begonias are perfect for containers, hanging baskets, and shaded garden beds adding continuous colour and texture from spring through autumn.
