Scaevola Touch

White

Deep pink

Blue

Indigo

Scaevola ‘Touch’ is a heat-tolerant, trailing plant known for its fan-shaped blooms and continuous flowering. Reaching 15–25 cm in height and spreading up to 24 – 41 cm, it’s ideal for hanging baskets, containers, and sunny borders. Blooming from spring through autumn, it thrives in full sun and well-drained soil, offering vibrant colour with minimal care.

Scaevola Surdiva

White improved | Fashion pink | Lilac mist | Purple | Sky blue

Blue violet

Scaevola ‘Surdiva’ is a compact, heat-tolerant variety with fan-shaped flowers in shades of blue, purple, or white. It grows to 15–25 cm tall with a spread of 46 - 61 cm, making it perfect for containers, baskets, and sunny landscapes. Blooming from spring to autumn, ‘Surdiva’ thrives in full sun and well-drained soil, offering exceptional performance in hot, dry conditions with minimal maintenance.

It is a condition of sale that growers use the approved Norwood labels for this crop
